#### Considerable Rain in Sections Causes Upturn, But Weakens Before Close.

Wednesday Afterneon, June 23.
Considerable rain fell in some sections of the helt over night, while inflications were fairly favorable for more soon, which encouraged a moderate upturn during the day's session. The weekly summary of the weather was just about as expected and afforded neither side material help. From the say's topmost levels, however, which were recorded in the late part of the session, there was liberal decline, which arried quotations to around the lowest of the forenoon and left the list near the previous close. The excuse for the late outburst of selling was a rumot that a private statistical bursau has intimated to its clientele that its first batch of reports pointed to an improvement in crop condition during the month of about eight points, which is Wednesday Afternoon, June 23. provement in crop condition during the month of about eight points, which a aded to the government report of Ma 25 would give a per cent of just a little better than 70. The selling came sud-denly and found absorptive capacit

Pinals were barely steady and from 3 points up to 1 down in New York while in New Orleans tone was also barely steady and the list from I points off to 8 up. Liverpool to make response should open 5, to 10 points off tomorrow morn-

open 5, to 10 points off tomorrow morning.

The foreign market for some reason came better than expected and closed barely steady at a gain of one point of a decline of 20. The list was due to be 18 to 33 to the bad Spots were marked down 2 points fully middling to 27.79d with sales 3,000 bales and receipts were 5,000. Private cables did not bring any special news.

Weather was the chief issued with traders at the opening and private reports indicated precipitation over a considerable territory, including some where the weevil is this naturally stimulating fear of making the pest worse Later details showed that rains were liberal in portions of Texas and in Oklawere light. The barometer lines suggested to the private weather sharks probability of more rains to follow, although the forecast did not strengthen this view.

At the openine October was up 20

though the forecast did not strengthen this view.

At the opening October was up 20 points, at 33.80c, while July started at 35 up, at 36.53c. The former month was pushed to 33.96c by the buying from several sources, but not some liquidation, especially in July, and a reaction carried prices to around yesterday's bottom. Then the weekly summary came, together with a lot of reports telling of the unfavorable character of weather in Texas, which sent prices up to the top for the day. October reached 34.12c and July 36.84c. The last selling wave sent July to 36.20c and October to 33.62c. In the spot department news continued scarce and business is improving very slowly. Dallas reported sales 1.112 bales and quotations unchanged, midding at 38.25c, while Houston elevated quotations 25 points to 39c and sold 807 bales. New Orleans sold 450 bales and Memphis 750, neither making any change.

CHICAGO, June 23.—Potatoes dull; receipts 55 cars; Southern Triumphs, sacked, \$7.00@7.50; Eastern Cobblers, barrels, \$12.50@13.00.

NEW YORK, June 23.—Bar silver domestic; 98%, foreign, 92%, Mexican dollars, 70%c.

#### Early Decline in Corn Helped by Favorable Advices From the Fields.

CHICAGO. June 23—Prices dropped sharply in the corn market today owing to lack of support. Favorable crop advices about corn and other grain as well did a good deal to make the selling side popular. Opening prices, which ranged from ½c to 174c lower, with July 81 77% to 81.78% and Sept. \$1.67% to \$1.68%, were followed by additional losses, and then by a moderate upturn.

Subsequently a decided upture in quotations resulted from new strikes of switchmen on Western roads. The close was strong, Pice net higher, with July, \$1.80\include{1.51}\text{2.51}\text{2.51}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{3.61}\text{4.61}\text{
